

SITUATION AT TULE LAKE CENTER

The following report on the Tule Lake Segregation center was received yesterday by Project Director Ray D. Johnston from the Washington WRA office.

The Tule Lake center, made up principally of evacuees who wish to go to Japan or who have evidenced disloyalty to the United States, has been quiet during the past week with the Army in control.

The WRA staff is still

carrying on routine administrative functions under the direction of Army officials who assumed charge of the 15,000-population camp the night of Nov. 4 at the request of R. R. Best, project director of Tule Lake center.

A number of the gang of 300 to 400 young Japanese men armed with sticks and clubs who moved into the administration area about 9:45 p.m. on the

night of Nov. 4 were seized, Best said, in fights with WRA staff members just before the Army moved in. None received gunshot wounds. Best indicated that the Army and WRA are taking steps to round up others in the gang of troublemakers who have been causing discord in the segregee center since early October. EXODUS: EDITOR SAIKI LEAVES CENTER

With the relocation of Editor Barry Saiki to the Chicago area last Thursday, the OUTPOST staff has suffered their thirtieth loss in one year. Saiki left the center on short-term leave to return sometime in January; then, his plans are to relocate on indefinite leave.

He leaves behind an enviable record in journalism as editor of the EL JOAQUIN, official publication of the Stockton Assembly Center, and as editor of the OUTPOST and numerous other publications in the Rohwer Center. Saiki, better known to center residents as "Barry-more," was also noted as an active busset leader and past president of the YBA.

A University of California graduate, Saiki hails from Stockton, Calif., and was one of the youngest editors of any WRA center publications. Before evacuation he has had very little experience and no formal training in journalism—but this has not hampered his accomplishments in that field.

POPPIES SOLD FOR ARMISTICE DAY

In observance of Armistice Day, a sale of veteran-made poppies was held in the Center this week.

\$18.42 worth of poppies was sold in the administration buildings, police station and MP barracks.

No returns have been reported as yet from the schools where the students took part in the sale.

SUBSISTENCE GRANTS Based on Family Size, Needs

Subsistence allowances for evacuee families relocating hereafter will be calculated on family size and needs, according to word received last week by Project Director Ray D. Johnston.

The new plan, which became effective Nov. 4, provides for the same transportation allowances that have heretofore been allotted but permits a 5-day subsistence allowance of \$25 for each person making the trip regardless of the number in a family. With relocation assistance grants based on need, all family members are eligible for subsistence allowances, provided that the cash resources do not exceed \$100 per family member.

Under the old procedure, no family was allotted a subsistence allowance of more than \$100.

Evacuees who wish to apply for relocation assistance grants may receive full particulars from Relocation Officer E. B. Moulton in Ad. building 2.

EVACUEE FARM WORKERS AID IN HARVESTING SUGAR BEETS

Japanese evacuees employed on farms in the Denver area have harvested this season enough sugar beets to supply 748,000

persons for a year at the present ration allowance, Harold S. Choate, relocation supervisor, said today.

The 700 evacuee workers have topped 65,300 tons of sugar beets, amounting to 18,666,200 pounds of sugar, on farms in Denver, Adams, Jefferson and Arapahoe counties, Choate disclosed. Estimating 26 pounds of sugar per person annually, the total amount of beets harvested by the evacuees would satisfy the ordinary wartime needs of the population of a city the size of San Francisco.

In addition, the evacuees have aided in the harvesting of other crops in the Denver vicinity, including head lettuce, cabbage, root vegetables, tomatoes, celery and potatoes, Choate added.

"All the reports I have received indicate without exception that the evacuees have been willing and intelligent workers," Choate said. "Moreover, they all thought of their work in terms of the war effort, realizing that by laboring on farms they were making a genuine contribution toward shortening the present conflict."

MANY CASES AIDED BY PROJECT LAWYER

In October, 100 individual evacuee cases were handled by Project Attorney Jack Curtis.

This number included 33 property cases, 13 insurance, 6 taxation, 2 collection, 3 probate, 1 divorce, 11 referred by the local evacuee property office, and 37 miscellaneous.

First Lightweight League Game Schedule For This Sunday

As Jupiter Pluvius played misery with last week's opening league game between the Joker Y's and the Blue Devils, the Rohwer lightweight league will have its first league opener tomorrow. This time it will be the Broncos clashing with the Blue Devils, Sunday afternoon, beginning at 2 o'clock on the Senior high field.

Geo. Sugimoto	Swecho Abe	Tak Tahara
Jim Matsumoto	Shig Ohata	Joey Noma
Hank Nishioka	Sat Oune	Toku Nitta
Warren Nitta	Bert Sato	Teru Nomura

Once again, bad news has hit Coach George Furuoka's already small squad, this time it was their ace ball packer, speedy Sat Oune, who is now recovering from a tonsil operation and will not play for another week or two.

This game will also be the last for Blue Devil's quarterback, Roy Kasuyama, who is scheduled to leave for Camp Shelby next week to be inducted into the Japanese American Combat Unit.

Replacing ailing Oune at the left half back position will be either Sammie Ichiba or Joey Noma. Teruo Nomura, Kasuyama's understudy, will no-doubt see a lot of action for he will be called on to take his place in the important quarterback post for the remaining league games.

Coach Bruno Kitagawa's cardinal clad Broncos have been going through their final preparation for their big test tomorrow. With their much talked about backfield in top form and their rugged line in shape, they will be out to shoot the works against the Blue Devils.

With the exception of Shig Hayashi, who is still missing, the Broncos will be at full strength.

DENSON, ARK.--The Denson Class "A" Baseball All-Stars may travel to Arizona next spring to play a series of games with the Gila All-Stars.

HEART MOUNTAIN, Wyo. The Heart Mountain high school Eagles won their fourth straight game and remained undefeated and untied, as they squeezed out a 7-6 win over the highly touted All-Center team.

The Eagles' touchdown came in the first period when Babe Nomura threw a 16 yard pass to Stan Igawa for a touchdown. Nomura's place-kick was good for the seventh point.

The All-Center lone score came in the middle of third quarter, when Tosh Asano, formerly of the Citrus Jaycee in Southern California, ran 48 yards to the Eagles' one yard line. On the next play

TULE LAKE SITUATION

(Continued from Page 1)

Edward F. Berback, was injured in the disturbance of Nov. 4.

The administrative area is now completely cut off by a high fence from the Japanese colony. Since the Army moved in no evacuee workers have returned to the administrative offices, although small crews have been unloading coal and food and moving garbage since Tuesday. No one was permitted to go into the Japanese colony without army escort.

"In our opinion the majority of the Japanese residents would not question the authority of the WRA or the Army," Best said. "However, since segregation we have been aware that we have in this Center Japanese who would go to any lengths to cause trouble to the United States government in the belief that in so doing they would be aiding Japan. Knowing this we have been ready to ask the Army to act on short notice. The group of troublemakers has seized every opportunity to make major issues out of minor grievances of the residents in the effort to gain political control of the whole Japanese population for their own personal prestige and to serve the Japanese Emperor. Labor trouble was stirred up by agitators among the coal crews and farm workers."

"The boldest move by the group occurred Nov. 1 when Dillon S. Myer, WRA director, visited the Tule Lake center. He was not scheduled to meet with Japanese representatives until the next day. Yet it was announced in all dining halls at noon that all the evacuees were to go to the administration area to hear a talk by Mr. Myer. As a result of this hoax, between 3500 and 4000 men, women and children streamed up from the colony to the administration building. A well-organized group of perhaps 200 aggressive young men directed the movements of the crowd and also told WRA staff members to remain in the administration or

other buildings. Their language and actions were rough but there was no fighting. The WRA staff realized that a single incident could endanger many innocent people, and such an occurrence could have been used by Japan to retaliate against Americans held by them. The advisability of calling in the Army which was lined up at the edge of the project ready to act was seriously considered. In view of the fact that the crowd was orderly, that it contained many women and children brought there by a hoax, and that the crowd was between the Army post and the administration building, it was decided to avoid possible bloodshed which in all probability would have been inevitable under the circumstances if the Army had been called in. While the crowd stayed outside, Mr. Myer, Mr. Cozzens and myself met in my office with a group of 17 Japanese who said they represented the colony. While this meeting was in progress we received word that 10 to 12 thugs had beaten Dr. Reese Pedicord, chief medical officer of the project, in his office at the hospital. The meeting was held up until we were assured by the visit of a staff member to Dr. Pedicord that he was safe. Mr. Myer told the committee and the crowd that he did not act upon demands, and assured them that the WRA and the evacuees could get together to discuss and settle any problem," Best said.

237 evacuees from relocation centers and outside are working 14 to 16 hours a day to harvest the crop of the Tule Lake Project farm which the Tule Lake segregationees refused to touch. Among the group of farm workers are 32 from Idaho. A special train left Wednesday the Tule Lake center with evacuees who had been scheduled to be transferred during the segregation movement. Among them were 90 going to Minidoka.

Take up our quarrel with the foe;
To you from failing hands we throw,
The torch; be yours to hold it high.
If ye break faith with us who die
We shall not sleep, though poppies grow.

In Flanders Field

The very last words of a dying warrior in World War I. Perhaps at that time, the soldier was dreaming of an Armistice and a lasting peace. But before his dream came to a fulfillment, he died. Ten months later, the first Armistice was signed. But to us he has given a challenge,—an invisible torch of world-wide brotherhood to be held high by us the livings.

For a period of about two decades, we were proud to have said to ourselves, that the torch is still upheld by us. But a few years ago, we got involved in another world-wide conflict. Perhaps the whole world is fighting because of political, economical or military reasons, but whatever the reason may be, the fact remains that we have dropped the torch handed to us by the dying soldier.

When on the battlefield, an American soldier, a Japanese soldier, an English soldier or a German soldier, no doubt has no personal grudge against the soldiers whom he is shooting. He shoots only because his orders are to shoot. This sounds foolish, but it's just one of those things. In a cold scientific viewpoint, we are but animals fighting for existence—a case of survival of the fittest. If we view ourselves in this manner, it may be easier for us to formulate a lasting peace:—but the dead of the last war are not sleeping, for we have failed to fulfill their dreams.

When will we pick up
